RADISSON HOTELS

Following recent French government announcements, a health pass will be required from adults aged 18+ from August 9 to access all our dining and leisure facilities, including restaurants, bars, breakfast area, terraces, spas and swimming pools.

WHAT IS THE HEALTH PASS?

According to information available from the French government, as of the issue date of this page, a Health Pass must be presented in digital or paper form, to verify one of three things:

That a guest is **fully vaccinated (with an EMA-approved vaccine):**

- 7 days after the second shot for two-shot vaccines (Pfizer, Moderna, AstraZeneca);
- Four weeks after the shot for one-shot vaccines (Johnson & Johnson);
- 7 days after the shot for vaccines administered to people who have already had COVID-19 (only one dose is necessary).

OR that a **guest has been tested (PCR or Antigen) with a negative result in the last 48 hours;**

OR **for persons who have had COVID-19:** the result of a positive RT-PCR or Antigen test, confirming that the individual has been infected, and that a period of time of at least 11 days but less than 6 months has passed since the test result was obtained (considered as a recovery certificate).

Guests can present any form of Health Pass in paper or digital format, including a QR Code – such as the EU digital COVID-19 certificate, or equivalent for non-European Union countries, fulfilling the criteria outlined above.

For more information on the Health Pass, including the latest updates, visit the French government website.

WHO NEEDS TO PRESENT A HEALTH PASS ?

From August 9, all adults aged 18+ must present a health pass to access our dining and drinking areas. From September 30th, this obligation will also apply to visitors aged 12 to 17. Children under 12 are not affected by this measure.

We thank you for your patience and understanding.
